# CyberBlock Player Testing Instructions

Requirements:

- The players will be using a laptop or computer to play the game
- Google Chrome will be used as the browser
- Testing will be conducted in groups of 6-10 players
- The group must assign one person to be the host
- The group will play a total of 3 games
- The host and players will need to be in the same Zoom call

Features that you will be testing:

- Join the game lobby
- Trivia phase
- Defense purchases
- Attack countering
- Scoreboard point accuracy
- User interface and user experience functionality
- Send messages through team chat and all chat

Instructions:

1. Open a Google Chrome browser
2. Type in the following website: https://cyberblock.herokuapp.com/
   a. Do not close or refresh the page during each game
3. Wait for the host to create the lobby
4. Put the Lobby ID number the host provided in the "Enter Lobby ID" field
5. Put your name in the "Enter Name" field and click the "Join Lobby" button
6. Throughout the game, you will be able to chat with everyone or team members only

7. Wait for the host to switch players to different teams and to start the game
    a. Once the game starts, players who are not in session will be unable to join
8. One player in each team will be assigned to be the team leader who will answer questions for the team
    a. The role of the team leader will switch throughout the duration of the game
9. Once a trivia question is displayed on the page, the team leader will answer the question to the best of their knowledge with the help of their team
    a. Please play three trivia rounds
    b. Correctly answering a trivia question will award an additional five dollars
10. When the trivia round ends, you will be able to purchase defenses
11. Team leaders will be buying defenses
12. Once all earnings have been spent, click the "Submit" button at the bottom of the page
13. The Host will start the game when all teams have purchased their defenses
14. An attack will be shown that you must defend against
15. Each team will discuss their choices and the team leader will choose three defenses
16. After three defenses have been selected click the "Submit" button
17. Make sure that you are given points for successful defenses against attacks on the scoreboard
18. Repeat steps 14-17 until all rounds are completed
19. When all rounds have been played, the host will end the game session
20. To play another game, refresh the page and it will bring you back to the home screen
21. Once all three games have been played, type in the link below, and fill out the survey: https://forms.gle/T9UFRd92MEHMXQx87
22. Thank you for playing!
